Claude AI · OpenAI · MCP  
Workflows

## EDUCATION

### B.Sc. EEE

American International University  
Bangladesh · 2011–2015

## PROFESSIONAL PROFILE

Software Engineer and Senior Web Developer with 6+ years building e-commerce and SaaS products for clients across the UK, US, and Europe. Based in Dhaka, working onsite for Tuliptech Ltd. I work across the full stack — Shopify, WooCommerce, React, Next.js, Framer, and now Magento — and pick up new technologies fast by applying them directly to live projects. I take ownership of what I build and enjoy working closely with teams to get things done properly.

## WORK EXPERIENCE

### Software Engineer

Apr 2022 – Present

#### Tuliptech Ltd — Leicester, UK (Onsite, Dhaka)

- Led WooCommerce-to-Shopify migration for Stateside Distribution, delivering a 20% increase in conversion rate through rebuilt store architecture and theme customisation
- Built Shopify Flow automation to block fraudulent addresses, significantly reducing spam orders; improved LCP and cleared render-blocking resources for faster load times and better SEO
- Developed Catered by Clink ([cateredbyclink.org](https://cateredbyclink.org)) WooCommerce site from scratch with a fully custom checkout, built for scale and easy backend management
- Integrated 8+ third-party APIs (payments, shipping, CRM, Klaviyo, One Click Upsell) and automated order workflows using Postman, cutting client onboarding time by ~30%
- Delivered React and Vite.js frontend work across client projects including BlueFrog (JW Player) and the Tuliptech website; built CareApps and Empathika on Framer CMS
- Led Magento (Adobe Commerce) migration for Gaf Bros Limited from scratch; set up CI/CD via GitHub Actions and Vercel for VelaOps (Next.js), cutting deploy time by ~50%
- Developed and customised WordPress sites and plugins; worked closely with project managers on requirements, scoping, and new business development

### Lead Code Mentor

Oct 2018 – Apr 2022

#### CodersTrust Bangladesh Ltd

- Taught and mentored 500+ students in web design, WordPress, and Shopify; many went on to work locally or freelance
- Wrote course materials, ran assessments, and provided 1-to-1 coaching; reported weekly progress to Head of Education and upper management

### Freelance Web Developer

Sep 2017 – 2021

#### Upwork & Fiverr

- Completed 50+ WordPress and Shopify projects for clients across the USA, UK, Australia, and Europe with a 95%+ Job Success Score on Upwork
- Improved multiple WordPress sites from PageSpeed ~40 to 90+ (500% gain); clients regularly returned for follow-up work

## PROFESSIONAL DEVELOPMENT

- Web Design & Freelancing Certification — CodersTrust Bangladesh Ltd (2017)
- Magento 2 Theming — M.Academy (in progress, running alongside live Gaf Bros project)
- AI-driven Shopify development — using Claude AI and OpenAI to accelerate builds and automate repetitive tasks
- MCP-based workflow automation and SEO/digital marketing knowledge with AI tooling
